

M: Gill College.
Montreal.

March 21/87

Dear Dr Turnbull,

Three nos of
The 'Surp Cup' arrived
to-day and I enclose
them herewith.
The second and third
articles are in the
same style with the
first, in what may
be called the worst
and most tasteless
style of popular
French science.

The state as I argued
absolutely unfixed
hypotheses and it
curtains these by
uncertain or exploded
statements as to facts.

I'll think
that such writing
merits no attention,
My well-informed
Schulboy should
be able to see

its weakness, and
it will certainly make
no favorable im-
pression on intelligent
men and women,

Truly yours
J. M. Dawson
