

Quebec 4 April 1887

Dear Sir William

I write to congratulate
you on the measures
suggested at the last meeting
of our Council - for the
establishment of a Museum
at Ottawa in connection with
our Society.

Nothing in my opinion
is more conducive to the
promotion of the study of
Natural History.

My own Museum at
Spencer's range, incomplete
though it be, has been of much
use to me to identify species

Hoping to have the
pleasure to visit you soon,
I remain, Dear Sir William
your most Obedt
Mantral J. H. & Marie C.
M. P. S. C.

Le Moine
