

1149 Dorchester St.
Montreal.

14th May 1887

Dear Sir William -

You have my sincere thanks for the volume containing your papers on Cretaceous plants etc, which I find on my table this evening. I am so little at home that I fear I have been remiss in acknowledging some of your many favours. If so I beg your forgiveness. I hope for an opportunity at no distant day to make you some return for them.

Faithfully yours

W. C. Vanstone

Sir William Dawson
