

From S. S. Laws, A. M., M. D., LL. D., President of the University of Missouri.

UNIVERSITY OF MISSOURI, June 2, 1887.

Prof. J. W. Spencer, A. M., Ph. D.:

MY DEAR SIR:—

As you have in mind to become a candidate for the chair of Geology in Toronto University, I must be allowed to express my profound regret *at* the loss of your work to this Institution. You have now been with us five years and the Department of Geology and Mineralogy presents a contrast to what it was when you came here, and the construction of the Museum Hall and the gathering of its valuable collection as Director are due to your intelligence and faithful diligence.

To all whom it may concern, I do most cheerfully and sincerely give the assurance that Dr. Spencer is a man of unblemished character, a cultivated gentleman, a successful and able teacher and a scientist who stands, and in my judgment deservedly so, in the very front rank of his class of specialists.

Very Truly,

S. S. LAWS,
President.
