

Parker

Kings Norton,
n^r Birmingham.

June 6th 1887

Dear Sir W. Dawson

I am glad to be able
at length to give you some
ocular proof that my book
is not altogether a myth.

Since I last wrote, I
have had some slight
experience of the sorrows
of publishing!

I think I told you that
I had been advised to offer
it to the S. P. C. K. - which
I did; and after waiting
nearly a month for a reply
I got so disgusted with the

during its progress through the
press, very pleasant and
straight forward; and they
have tried to meet my wishes
in every respect.

I now enclose you a Copy
of Prospectus - a number
of which they have kindly
printed for me to distribute
among my friends.

They appear to think it
desirable to defer its issue
till the early "Autumn Season",
but I have some hope it

may appear earlier.
As soon as a Copy is ready
I shall send it by air with
much pleasure.

Please give my best
respects to Lady Dawson and
family - who I hope are well,
and believe me
very sincerely Yours
S. H. Parker.

P.S. I regret to say that
my health still prevents
me taking much physical
exercise.
