

Ottawa,

20th June, 1887

Dear Sir William,

I have had assurance
that the grant will be all
kept. The action of some
members of the Government
in taking exception to
the election of Dent is
very objectionable. It shows
the nature of our tenure.
I have my doubts as to
the wisdom of the choice,
but nevertheless we cannot
be dictated to. Speaker

Person who is anxious to
get in, but has not a
shadow of a claim
threatened me that
the grant would be stopped
at the Garden party.
I shall exert myself
personally hereafter
to prevent such contempt.

I have called a
meeting of Council
on Thursday to elect
a Printing Committee

purpose.

I will elect the name
you suggested here.

I know nothing of the
renowned chemist in
the Geological Survey
of Canada. Pelee Mitchell
I fear others are making
as laughs ^{but that means nothing} if any thing
reliable comes, bring
ear, at any time I shall
advise you

Yours sincerely
Prof Rowland
