

High School 29th June '87

My Dear Sir William,

Our head-boy in Science - Stud-
is a capital student, especially good in
Mathematics. He would like above all
things to go to McGill next year, but
is unable to meet all the cost. Can
the University grant to the Dean of the
Science side the same privilege as to the
one on the Arts side? Or, can you suggest
any way in which the first year tuition
might be lightened?

Very yours, with kindest regards

Thos. M. Kelly
