Dear Sir William

I regret to hear of that
troublesome man Dr Murray, I wish he could
find employment some where else; Such a Crank,
Can be of no real value to the university. He has
always avoided me, and I hope he will continue
to do so; but should I hear from him; I will
do just as you advise.

I suppose Dr. Robins has written you about
Normal School matters, I looked over the repairs
to day, which they are making, changing the old building, having
nearly pulled it to pieces, the contractor says it cannot be
ready until end of first week Sept. I hope to meet

You and Lady Garrison in good health.
on your return from Metz are
with my kind regards

Sincerely yours

A. L. Garrison
