

Quebec

November 2nd 1882

Sir William Dawson C.M.G.

Dear Sir

As a preliminary announcement has appeared in the press in regard to the Miller's Course of Lectures and the gentlemen who are to take part in it, I trust you will reconsider your decision not to lecture. On inquiry I find that the meeting of the Prob. Com. takes place on Wednesday the 30th of November, but if you find the date an inconvenient one for you as far as the lecture is concerned, we can put you down for the last Wednesday in February - the date of ^{the} second meeting of the Prob. Com. We can hardly expect you, considering the number of ^{you} engage-

wants to prepare something specially
for Quebec. You have a lecture on
the Nile & Egypt which the Quebec
people have never heard. Trusting
you will excuse my impertinence I

~~subscribe~~
^{remain}

your faithfully
