Dear Sir W^m Dawson,

I have a class every Friday at 3 p. m. which must, I regret to say, prevent my having the pleasure of hearing your University Lecture. The subject is a specially important one in these times - I suppose it is the influence of the French R. C's that caused the disastrous decision the other day.

Has any settlement been arrived at by

The Normal School
Committee with reference
to Dr. McGregor?

I shall have to leave
at Quebec next week.

Believe me

Sincerely yrs

R. W. Hornum
