

THE FRASER INSTITUTE,

R. W. BOODLE,
Librarian and Secretary.

811 DORCHESTER STREET,

Montreal, Jan. 20 1858

Sir William Dawson,

Dear Sir,

Friends of mine and I the College have repeatedly called my attention to the fact that the Secretaryship is vacant and that the College has advertised for applications for the post; and, moreover, that the post of Librarian is also either vacant or likely to be so. They have advised me to put in an application for both or either. For the latter post I think you will allow that it is some qualification, that besides a fair knowledge of and liking for books in English, I have received a pretty thorough training in Greek & Latin. As qualifying me for the former post I have only to say that I hold a similar position at the present moment.

However, in both cases I am willing to submit my application to you first and last. I shall take an early opportunity of calling upon you, unless I hear from you before; and should you dissuade or in any way discourage application, I shall take that as final.

Yrs. truly
R. W. Boodle
