

ITHACA, N. Y., Jan., 1888.

To Sir J. William Dawson,
Pres. McGill College,
Montreal, Can.

DEAR SIR :

At the request of the Secretary of the Smithsonian Institution, I have undertaken the preparation of a Report on the Progress of Palæontology, for the years 1887 and 1888.

In furtherance of this work and in order to make the Report as complete as possible, will you kindly furnish me copies of any papers on Palæontology or kindred subjects published by you during the years 1887 and 1888.

If inconvenient to send me the printed papers, please send manuscript lists of their full titles, with place and date of publication, and if in periodicals or publications of societies, etc., the volume and page, and the names of all new genera and species described in each.

As the time allotted for preparing the Report is limited, an early response is requested.

Respectfully yours,

H. S. Williams,

Dear Sir:

In the report of the Secretary of the Smithsonian Institution, I have the pleasure to inform you that the report on Paleontology for the years 1887 and 1888 is now ready for publication. In furtherance of this work, and in order to make the report as complete as possible, will you kindly furnish me copies of any papers on Paleontology or kindred subjects published by you during the years 1887 and 1888?

If convenient to send me the original papers, or to send me a description list of the full title, author, and page, and to send me a page if in periodicals or publications of societies, etc., the volume and page, and the names of all new genera and species described in each.

As the time allotted for preparing the Report is limited, an early response is requested.

Respectfully yours,

Cornell University
Ithaca, N. Y., U. S. A.
