Dear Sir William

- As I have not received any communication from you on the subject of the land belonging to Sir Dawson in University St, it seemed fitting that I should ask you if we might look forward to an effort being made by the College or its friends with a view to its acquisition.

Will you kindly let me know what the prospect is - as I don't wish to make a public effort for its sale until I know the views of your Corporation on the subject.

Believe me yours faithfully

J. Philip Withers
