My dear Sir William

At last I have got the  
third (Lichée (or electro)) & the  
bill for it &c. Unfortunately  
the Geol. Mag. for Febry was  
printed off & the type distributed  
before your letter came to hand,  
so all your instructions could  
not be fulfilled. - But as much  
as possible of your wishes have  
been <sup>or will be</sup> attended to - The parcel  
shall be sent soon to Messrs. Sampson,  
Low,

Low, & Co. - & the parcel by book post  
will go off today. - As I had  
ordered only 50 ~~of~~ separate  
copies, you will not have  
so many as you asked for.

The printers sent 53, - of these  
I have taken 2, & have given to

C. B. Sherborn	1
Saut Carpenter	1
Herbert Corbante	1
S. Bronney	1
Dr. Nicholson	1
Geological Society	1
W. Hilde	1

leaving 38 to be sent by Sampson, Low, & Co.

All the separate copies  
have been carefully corrected  
by pen. In one you will  
find a copy of some additional  
note.

Enclosed is the receipted  
bill for 50 copies & the ~~bill~~<sup>price</sup> of the  
cut at p. 50.

Please to excuse the nonfulfillment  
of all your wishes abt. the paper.  
I could only write with the proof  
when I did, not getting it before then,  
& the printers had hurried their work  
& distribution of type before yours of  
Jan. 26 came to hand.  
Believe me yours very truly  
Edw. P. Jones
