

The Larches,  
Westbury-on-Trym,  
Nr. Bristol.

March 30/88

Dear Sir William Dawson -

I am very much  
obliged to you for the copy I  
have received of your 2<sup>nd</sup> Ed.  
of "Egypt & Syria". It is a  
delightful little book, &  
I hope it may go into many  
more editions. I am very  
glad that you have given  
preference to the Pithecom  
discoveries. Have you seen  
Lichten's pamphlet - & the  
best way in which he  
adopts M. Naville's conclusions?

I am very ignorant of  
Geology - but treated as you  
treat it, I find it very  
interesting. I await the new  
Volume with eagerness, &  
shall be deeply interested  
in all you may have to say  
as to the employment of  
Stone - & the objects which  
our Society has sent to  
your Museum.

Mr Dox is certainly  
making an effort to draw  
attention to our work; but  
he evidently has very

little time at command.

If you could induce some  
of your friends & acquaintances  
to become subscribers, we  
should be very grateful. If  
Montreal could send us a layer  
just a bit, we should be  
in a position to ask some  
important donations to  
the Museum.

I am, my dear Sir

Yours very sincerely  
Amelia B. Edwards

To Mr. Dawson.
