Dear Sir J. William Dawson

Allow me to thank you
very much indeed for your two "Present
Day Facts".

I have read them several
times with increasing pleasure.

They are full of the highest instruc-
tion and a masterly knowledge of
scientific facts & their significant
bearing on revelation.

Those who are really seeking the
truth & whose minds have been
pained & perplexed by atheistic and
materialistic theories will find in
them answers to many momentous
questions & a solution of many distressing
doubts. I very much hope
that ^{these} will have every wide

Circulation. The R. I. S. sh^d. not only
publish ^{them} but use some special
means to make them more generally
known & indeed the whole series

A free distribution of a certain
number might have this effect
& could not fail to do good.

With much respect
I am

Yours most obediently
& obliged
C. J. Winter

Dear Sir, William Dawson

Allow me to thank you

very much indeed for your two "Present
Dop Books".

I have read them several

times with increasing pleasure.
They are full of the richest instances
two are somewhat knowledge of
scientific facts & their significant
bearing on evolution.

Those who are really seeking the
truth whose minds have been
formed & perfected by aesthetic and
materialistic theories will find in
them answers to many questions
questions & solution of many problems
which I have been much surprised
that I have never seen
