

The Manor House,
Chislehurst.

May 27, 1888

Dear Sir William Dawson,

Mr John Stephenson,

Son of one of the founders of the
Medical Faculty of McGill Univer-
sity, is about to revisit his native
city after a long interval.

Mr Stephenson has for many years
been connected with the Education
Department in England and

may feel some interest in learning
how educational matters are managed
in Canada -

But the occasion of his visit is
the need of a change for the
benefit of his health. I shall
be glad if he brings back pleasant
memories of Montreal.

Yours ever faithfully
