My dear Sir William

I return you with Mr. Mudge's letter. It is I think very desirable to comply with his wishes & I have requested Mr. Whiteaves to look up the specimens he mentions & have them sent to you for examination & comparison. Would you kindly give me some further particulars on the subject you briefly mentioned to me the other day in reference to Fletcher's determinations in Nova Scotia. both as regards Carb. & Devonian and his subdivision of the Silurian. and I would then ask him to give me the precise date on which he has relied. I am sincerely yours  
Alfred R. C. Selwyn
