

Beech Hill.
Sydney Mines.
Cape Breton
4 June 1888.

My dear Sir William.

By S.S. "Irene Morris"
which sails hence for
Montreal tomorrow, I take
the liberty to send you a
few Coal plants, fossils,
in a small box. There is
nothing new among them,
but they are the best
specimens I have been able
to procure lately; should
you have plenty of the same
already, please give these
away to any of your students
who may care for them.

I will instruct our Agent,
W. South, of Montreal, to
have the box sent to you

By *James*
Brow

June 80

at the College
I shall be glad to pay
a visit to our friends
the summer school has
just closed & I am
with me for a few
days but I shall
be in the city
for a few days
more

Very truly
yours
Wm. H. Brown

at the College.

Should you think of paying
a visit to our Province
this Summer, I shall be
only too happy to be favoured
with a visit from you.

With kind regards.

Yours very sincerely
R. A. Brown

Sir William Dawson
Principal
McGill University
Montreal.
