

Elmwood ~~A Campbell~~
~~July 1888~~

Mount Auburn, Mass.

August - 3rd - 88

Dear Sir William

I have just returned
from my brief visit home
to St. Louis & hasten to
thank you for the very
highly appreciated &
valuable gift of your
book "Modern Science
in Bible Lands."

It will probably be read
by us during our sojourn
in the very lands it
treats of when we will
again recall as we so
frequently do the very
many pleasant hours
we enjoyed there in the
company of Lady Dawson
Miss Eva & yourself.
My brothers & I sail

for France in a few
weeks & will remain
in Paris until we have
established a tempo-
rary home whence we
will travel about at
our leisure.

We hope so much that
we have the great
pleasure in staying
with you of meeting you all

again across the water
for you travel so much
I such great distances
that our paths will
surely cross sometime.
Pray accept our very
kindest remembrances
for Lady Dawson, Miss Eva
& yourself. I wish again
sincerely thanks from
Respectfully Yours
Hugh Campbell.
