

L. Metis

Aug. 19/88

Dear Mr Russell,

I notice that you are writing on the Dead Sea. Allow me to ask you at a lecture to my studies of the region, in my new work "Modern Science in Bible Lands" Hodder & Stoughton London and Harper, New York. I think you will find some useful hints not in previous writers, though

I have not yet had
time to have a
microscopic & chemical
analysis made of a
fewerhat complete series
of the lacustrine deposits
which I collected.

I would send
you a copy of the
book if I were not
at this out- of- the-
way place.

Truly yours

Wm. D. Brown
