

1157 Dorchester Street,

Montreal. 25th April 1886

Dear Mr Mann

I recently met several
students in the classes for the
higher education of women,
as mentioned in the note you
so kindly wrote me yesterday,
in addition to an equal number
already on the list of Mr Gilman's
a gratifying showing, and it
is the hope that the efforts to

provide separate education for
women in the higher branches,
notwithstanding the determined
opposition it meets from some
quarters, may be at least moderately
successful

Many thanks for your note
& believe me
Sincerely yours
Doubtless

for

2

July
