

R. M. College
Kingston
Febr. 4th 1889

Dear Sir

Last-summer as
I was on the train with
you on the way to Little
Metis you said that
you would be happy to
forward me some of your
late original papers
They have however not
come to hand and
I venture to remind you
of your promise

Wassell
Papers
1784

I would be obliged also if
you can tell me how I
can obtain the late report
of the Royal Society com-
mission on the eruption
at Krakatoa

If I wrote to the Secy of
the Royal Society would
he send me to the
College gratis or can
it be got through the
regular booksellers?
Hoping that you will
not consider me
troublesome

I am Sir

Yours truly

John Waddell

Prof of Science R.M.C.

Sir Wm Dawson
