

Columbia College, N. Y.

Feb. 9, 1889.

Sir J. William Dawson.

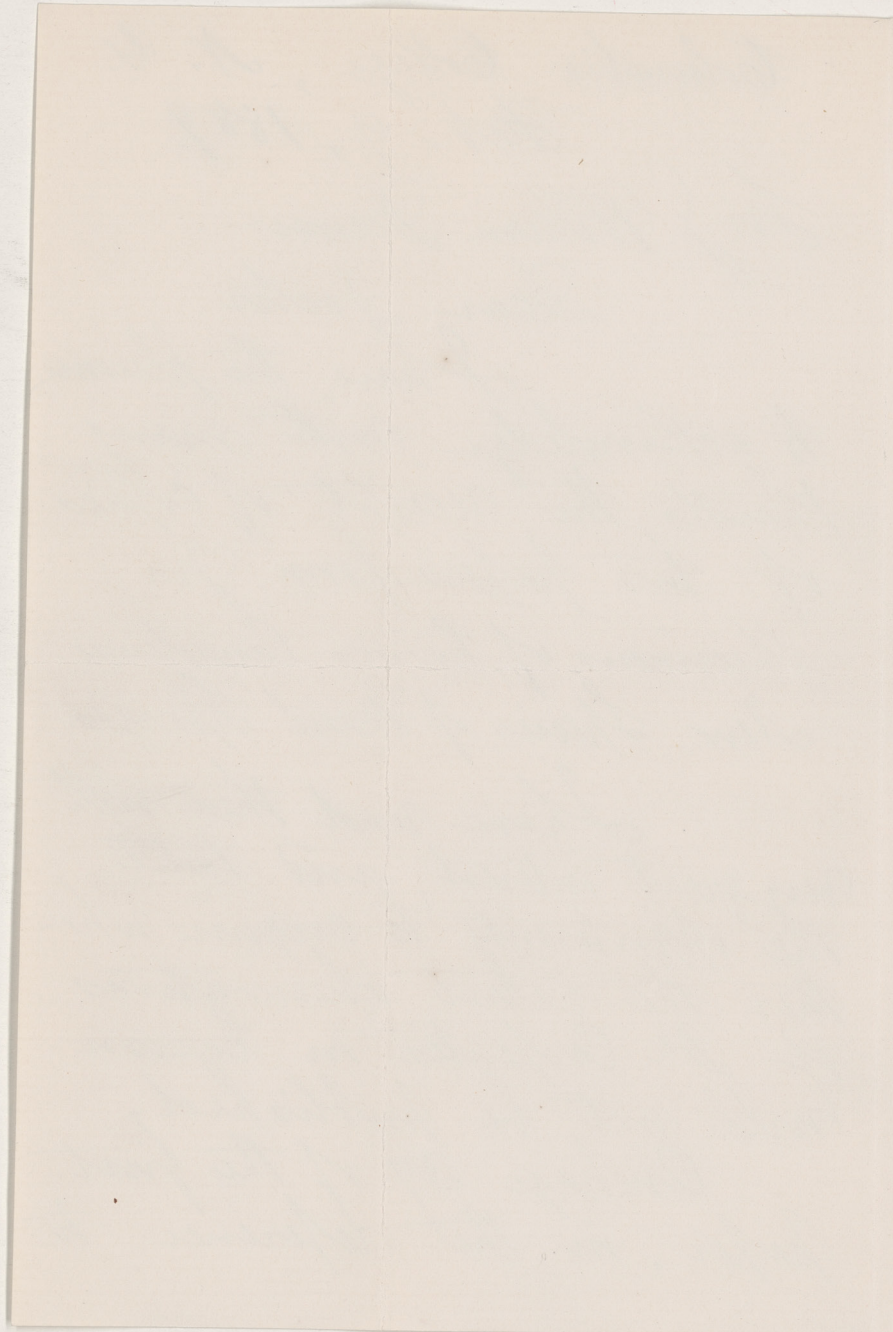

Dear Doctor.

I have the pleasure
to acknowledge, with many
thanks, the receipt of copies
of two papers from you:

Specimens of *Eozoon Canadense*.
New Species of Fossil Sponges.

I have read them with
very great interest, and take
the opportunity to enquire whe-
ther the latest observations
of Dr. Carpenter on *Eozoon*
will not be published.

On page 37 of the first
paper, in the reference to

myself "and others", will
you kindly inform me
what other observers have
suggested views similar to
those expressed at
the meeting of the
American Association, and
oblige

Yours Respectfully,
Alex^r A. Julien
