Sir William Dawson,
Montreal, Que.

Dear Sir/-

Your postal of the 6th inst. was forwarded to me and arrived during my absence from home, hence the delay in reply.

Mr. Lethaby is not working for any Society that I am aware of. He has taken up an independent work at Kerak--the land of Moab--of his own accord, and upon his own responsibility, and I believe is doing a very worthy work. He having been a Methodist, the Methodists have in a way claimed his work as a Methodist Mission, but inasmuch as they give it no regular support, it cannot be said to be theirs--in fact, I believe he receives considerable support from the English Church at Jerusalem.

I had the pleasure of making Mr. Lethaby's acquaintance while at Jerusalem a year ago and heard from his own lips an interesting account of his labors. Since then I have had one or two letters from him. I have persuaded him to write a few letters for publication in our monthly paper, copies of which when published I shall be pleased to send you.

Thinking a perusal of the letter he last sent me may be of interest to you, I enclose it and respectfully request its return.

Very truly yours,

W. E. H. Massey
