

Hall
Impey

Albany June 20th - 1889

Dear Sir William

I have received
yours of the 19th this am.

I have not forgotten your
wants and have only been
waiting my lithographer's
use of the figures in order
to send them with such
information as we have
about the fossils -

On comparing the specimens
with Billings' figures and
descriptions it seems to agree
better with O. pretiosa than
with O. Ida - But you shall
have the figures and all our
information in a day or two
with kind regards
Very sincerely yours
James Hall
