

Mr. Dawson

Dear Sir

Very sincerely

Yours truly

Albert Holden

Grace  
Martin  
Lumpkin

Dr. Williams

For a few months past I have been engaged in the study of the  
history of the various tribes of the  
interior of the Province of Ontario  
and I have been very much interested  
in the results of the  
explorations made by the  
various expeditions which  
have been sent out by the  
Government of this Province  
for the purpose of ascertaining  
the extent of the territory  
which is now under the  
control of the Crown  
and the results of the  
various expeditions which  
have been sent out by the  
Government of this Province  
for the purpose of ascertaining  
the extent of the territory  
which is now under the  
control of the Crown

Montreal June 5th 1887

HON. RECORDING SECRETARY.

J. STEVENSON BROWN,  
HON. CURATOR.

HORACE T. MARTIN,  
HON. CORRESPONDING SECRETARY.

"Tandem fit Surculus Arbor."

Montreal, June 24 1889

Dear Sir William

I intend leaving next week for a two months holiday in England - and while in London would pursue my study of the Mammalia wishing to profit by the opportunities afforded by the Natural History Museum, South Kensington - and the Zoological Gardens, Regent's Park

A note from you would so greatly assist in obtaining the entrance and privileges of these Societies that I venture to trespass on your time and kindness

Very Sincerely

Horace T. Martin

Hon Secy
