Lawrence Kan., Aug. 6 1889.

To Principal Dawson,  
(I can not give your initials.)

Dear Sir,

Not long ago I saw it stated that you were the only eminent scientist that did not accept Darwin's theory of development. I have thought it might be some comfort to you to know that you were not quite alone, - that there was one lit-  
tle scientist with you. I send you a copy of Thoughts on Development published in the Kansas Monthly in 1881 from my pen.

With much respect,  
J. H. Caruth.
