New York, Sept. 10, 1889.

Sir William Dawson,
Principal of Magill College, Montreal
Sir,

The conductors of "The TREASURY for PASTOR and PEOPLE"- a copy of which is mailed to your address with this note, in order to increase its usefulness and interest, are making arrangements for the publication in its pages of articles written by Principals of colleges, on Ecclesiastical, Exegetical, Scientific, Evangelistic, Reformatory and other subjects.

"They have selected you, as the one from whom they would like to have an article on

"Progress in the Reconciliation of
Science and the Bible."

The article need not embrace more than about 3500 words, filling between four and five pages of the magazine, would not be required before January 1st 1890 or later- however, when wanted, thirty days notice would be given you,- and for which they would be pleased to send you a check for \$15.00 .

An answer at an early date would much oblige

Yours respectfully,

P.S. You are at liberty to change the title of the article to suit your own views, or to select another topic on which you might prefer to write, and which would be in accordance with the scope of the Magazine.
