DEPARTMENT OF THE INTERIOR
UNITED STATES GEOLOGICAL SURVEY

Washington, September 24, 1889.

Dear sir:

I beg to thank you heartily for the three pamphlets which you so kindly sent me.

I shall try especially to learn and bear in mind all you have published on the Far East, during my proposed journey there with my wife the coming winter.

I have read Dr. George Dawson's late article in the Am. Journal with the greatest interest. He could hardly have worded it differently if he had written it in reply to questions which I wished to ask him.

Very sincerely yours

C. A. White

To

Sir J. William Dawson,
Montreal.
