SECRETARY OF
THE AMERICAN GEOLOGICAL SOCIETY,
UNIVERSITY OF CITY OF NEW YORK.

NEW YORK, Nov. 1st, 1889 188

Sir Wm. Dawson,

My dear sir,

Wont you send a paper to be read
at the December meeting, or many times better bring it and yourself
together? Hall Dana and Newberry will be in the first volume
of our publications and it promises to be a good representative
volume; now I am writing to you, your son, Dr. Bell and Dr. Ellis - is
there any other representative man in Canada? I may write to
Lawson too.

If our first volume be on a high plane, we shall have
no difficulty in keeping the Society such that every man will be
proud of membership in it. If you decide to prepare the paper, please
let me have a brief synopsis of say 75 words as soon as
convenient that I may send it with the other synopses to all the
Fellows. We want good discussions.

I am

Sincerely yours,

J. F. Stearns
