NOVA SCOTIAN INSTITUTE OF NATURAL SCIENCE,
HALIFAX, NOVA SCOTIA,
CANADA,

Dec 6th 1889

Sir J. W. Dawson, Kt.

Dear Sir William:

At the last meeting of the Council of this Institute, I was instructed to ask you to allow yourself to be elected a Corresponding Member. In taking this course the Council are actuated by a desire both to show in the only way open to them, their appreciation of your scientific work and at the same time to add to the dignity of the Institute by enrolling among its members the most distinguished man of Science whom Nova Scotia has produced. I send you a copy of our laws from which you will find that Corresponding Membership involves privileges but no duties. At the same time I need not say that the Institute would be glad to receive from you at any time communications on any subject but especially on subjects that would be of interest from the point of view of Canadian Geology.

I have the honor to be

Yours faithfully
J. G. MacKegg
Presd. N.S. I.N.S.
