Dear Sir William

The type is distributed but there are always some over-  
sheets. You may almost count  
upon 20 copies at least but  
before parting with them it seems  
to be safe of my count for the  
Society. There are always acci-  
dents happening one cannot  
foresee what they may be and  
a publisher is rather timid of  
cutting himself down to the  
precise number. I will take  
care of every sheet and if the  
worst happens there are only  
six pages to reprint. I approve  
however you want them for the  
mas and in the morning I will  
see if it can safely part with  
any more.

The Artists names can be

put on the plates. I will  
get it when we get the sheets  
out at completion.

The blocks are at your service  
whenever you want them. I have  
them at Oriskany St

Yours truly

J. D. Owen
