Petou 21st Dec 89

My dear Sir William

I rec^d with great pleasure your kind note of 15th. Instant and most cordially do I reciprocate your good wishes. Allow me also to congratulate you and Miss Dow on her engagement. Please tell her that we all wish her a large share of the happiness that comes to us in this changing life. I shall attend carefully to your wishes regarding your remittance. I have made some enquiries about the Petou Island people but have not so far ascertained what definite

Work may be done among them
this winter. If there be no
Catechist going then probably
the \$5 you send would be well
invested in some good reading
matter to be distributed among
them.

With all kind regards
and best wishes for the annas
tide of the new year.

Yours very truly
J. P. Pinrose

Friends here are well. My
