ABERDEEN.

Jan. 29th/90

Dear Mr William Dawson,

I have to thank
you for the slides of Protos-
salirina - for the papers
which you have been so good
as to send. The new Edition
of the "Palaeontology" has been
published for some weeks,
so that I could not now change
anything in it. But, as re-
fards Protosalirina this does

not matter, as I had fully
adopted your view as to the
genus belonging to the Rhizo-
carps.

Trusting you are well, &
with kind regards,

I am
yours very truly

H. Alleyne Nicholson
