Re James Kasper

DEPARTMENT OF THE INTERIOR
UNITED STATES GEOLOGICAL SURVEY
APPALACHIAN DIVISION OF GEOLOGY

Washington, D.C. April 8th 1890

Sir, J. W. Dawson,

Montreal, Canada.

Dear Sir:

In reviewing the literature relating to the Eocene and Tertiary rocks of North America, I came across a reference to a report of Desver which I am unable to find. In your paper "On fossil coriferous wood, from Prince Edward Island" in Philadelphia Acad. Nat. Sci., Ser. Vol. 7, 1854, 1855, p. 53, you speak of Dr. Desver's "Report on the Geology of Prince Edward Island" (1847). If convenient will you have the kindness to tell me where this report can be found?

Hoping that you can oblige me, I remain, very respectfully,
J. C. Russell, U. S. Geol. Surv.
Washington, D.C.
