

Sacramento,  
July 18th, 1890.

My dear Sir William:—

I thought much and often  
of a row down to Sir John  
but was deterred by the  
heat and a number of  
things that, from day to  
day, in the matter of cor-  
respondence and proof-  
reading, had to be attended  
to. Last week I was taken  
with a bout of severe dys-  
pepsia and bilious diarrhoea  
which has pulled me back  
momentarily, so that I shall  
now to me the next fore-  
night no matter I can to  
recompense, though I am much

better for my visit here.  
The weather has been superb,  
but decidedly hot for Tacoma.  
My plans are to be gone  
in the 4th or 5th Sept.,  
and I shall not be sorry  
to be back to my old  
home and relatives.  
Lore's people have behaved  
with some regard, as that  
I am only one more from  
or two, to receive some

them.  
The monthly meeting of the  
Am. Assoc. of the B. S. falls  
on Thursday 4th, & other early  
for so important a meeting.  
I would suggest that we

proportion the meeting a  
week, if you think it well.  
I have written to the P.B.  
and Messrs. Shaw, Lefter,  
and Warden in the matter  
of the letter I sent you.

The meeting about Comm.  
meets on the 3rd. Would  
it not be well to postpone  
that also, as Mr. Hogue &  
myself will be absent?

I trust this will <sup>imply</sup> satisfy  
Dewson and yourself  
and all yours, to whom  
you are kind regards,  
and the best  
for your visit to Meets.

I remain,  
Yours sincerely,  
Wm. C. Brown.

Dr. Wm. Brown.
