Oct 6/90

Dear Sir,

I beg to
thank you for your
kind letter and
sample of your baking
powder. Please
excuse me however
from the honour
of having my name
connected with the
article. I have found
E. Odium &

it necessary in my
position here to avoid
all connection with
Commercial enterprises.

I shall however
be happy to test
the powder or have
it tested in a
practical way
and to give it
such private com-
mendation to

~~My friends as I
can!~~

Truly yours
G. M. Dawson
