Upper Canada Coll:

Toronto.
- Ont.

Nov: 15th 1890

My dear Sir William,

At last I am able to write definitely that my long career here comes to an end in July, and that I receive, with a small pension, and with the implied proviso that I do not take up any Educational work in this Province. But I do not wish to be quite idle, and shall be glad if you will, at any time, tell me of any vacancy, which I am qualified to fill - my work has been, principally, preparation of boys for Matric: Exams: in Greek and Latin - History and Geog: - and occasionally English - But,

as you know, any good result
I may have has been gained by
a sort of special qualification
for assisting boys and young
fellows in developing character
as well as intellect - as I seem to
have some power in throwing
myself into their lives acceptably.
In my humble opinion, I am
best fitted for the post of Dean
in some small Residential
College, with enough teaching to
keep me in touch with the
studies of the young men -

Pray, do not trouble to answer
this, but keep me in mind, should
you, by any chance, hear of any-
thing likely to suit me -

With kind regards to Lady
Dawson, Believe me,

Very sincerely yours,

Jno: Martland

Wm Dawson -

Wm Strong think and Miss Linn seem to be enjoying
their short visit - We are glad Spirit Toronto gaining
fame as a health resort, for weary travellers -
