Sir J. W. Dawson

Dear Sir -

I have read your interesting paper "On Burrows and Tracks of Invertebrate animals and other markings," and would much like to have a copy. While at Kingston looking at the tree-like concretions, Mr. Opley and I secured three very good photographs of these so-called trees. Dr Selwyn no doubt would have a copy of each printed for you, if you wished.

Yours truly,
A. R. C. Selwyn
