REF.	33

New Haven, Sept. 9. 1892

My dear Sir William:

In selecting a few
figures ^{for my book} to illustrate the plants
of the Keokuk beds from your
paper, the query has come
up whether there are any
angiosperms at all in it,
according to your latest
investigations. I think
you ^{speak} of a few in the
Duskwa beds, and of none
else here. I should be
glad to have your
latest view on this point,
and as to the true relation
in age of the Duskwa beds.
I am making progress
with my Geology and

hope to have it in the
printer's hands soon
after the 1st of January

Faithfully yours

James W. Dana
