My Dear Sir William

I have been requested by a
Liverpool gentleman to procure a
specimen of the "Eozoon Canadense"
for him - Would you kindly
send me a piece from your

Collections? - Perhaps you already
know the person you will do this
favour to: it is the George Higgs

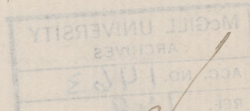

Who has produced & recently exhibited
before the Royal Society those
wonderful photographs of the ultra-
red of the Solar Spectrum —
incomparably the best so far —

I returned from England
last March & am now doing
the Mathematics & some Chemistry
for our B. A. Candidate.

Hoping that you are well
I remain, my Dear Sir William,

Sincerely yours

Edw. J. Kavanagh, S.J.
