Dear Sir William,

I am much obliged for ~~your~~ the copy of your late monograph on "the Canadian Ice Age," which you were so kind as to send me.

I have read it with much interest & pleasure, especially that part which treats of the fossils. Our collection of Canadian Pleistocene fossils, though of course a fairly representative one, is not by any means as complete as it should be.

I should have acknowledged the receipt of this favour before, but have been confined to the house for some time with an attack of influenza.

Very sincerely yours,

J. F. Whiteaves.
