

GEOLOGICAL SURVEY OF CANADA.

Alfred R. C. Selwyn, C. M. S., L. L. D., F. R. S.,

DEPUTY HEAD AND DIRECTOR.

MUSEUM AND OFFICES, SUSSEX STREET, OTTAWA.

Ottawa Mar 30 1894

Sir Wm Dawson  
Montreal. Quebec

Dear Sir —

I am very much obliged  
for your kindness in returning the plants  
found from the Onemica and Friday River;  
the more so, as the beds rest on Archean and  
Cambrian rocks, in a distinct basin, making  
it impossible to obtain any satisfactory  
stratigraphical evidence of age. Your correlation  
of them with the upper part of the Onemica  
agrees with the little stratigraphical and  
lithological evidence available.

Yours Very Sincerely  
R. S. Williams

BIOLOGICAL SURVEY OF CANADA

OFFICE OF THE DEPUTY DIRECTOR

NORTH AND CENTRAL DISTRICTS, OTTAWA

Ottawa Mar 30 1917

Dear Sir

I am very much obliged to you for the specimens of the various insects which you have sent me for the purpose of determining their identity. I have examined them and find that they are all new to me. I have also examined the material which you have sent me for the purpose of determining the identity of the various plants which you have sent me for the purpose of determining their identity. I have also examined the material which you have sent me for the purpose of determining the identity of the various plants which you have sent me for the purpose of determining their identity.

Yours very sincerely  
R. S. Macdonald
