Sir J. William Dawson C.M.G., LL.D.  
F.R.S., F.G.S. &c

Montreal, Canada.

Dear Sir,

I take great pleasure in  
sending you a short notice of  
your charming work "Some Salient  
Points in the Science of the Earth".

It is, I believe, unusual for a  
reviewer to read a work which  
is presented him for criticism but  
in this case I assure you each  
word has been devoured eagerly  
and I now wish to add personal  
acknowledgment of admiration and

indebtedness - I trust that you  
will not consider the request out  
of place if I ask you where I can  
obtain one of your photographs?

I should greatly prize the same,  
but have been unable to obtain a  
picture in this country though I  
have made considerable search.

Thanking you Sir for your courtesy

I remain respectfully

Charles Plate
