

1751 Eighteenth St. Washington D.C.

Jan 10th ,1895

My Dear Sir.

*Spencer*

I send you by mail to day my paper on The Reconstruction of the Antillean Continent. I hope that you will find time to read it. It may seem presumptuous to you <sup>for me</sup> to make such generalizations, but I have no other defense than the data brought together. On the other hand I have data even more certain to show that New England was submerged to the height of at least 2,000 feet since the birth of Niagara. This work is not organized into a paper, and I should like to lay the facts before you, but it could only be done in an interview. It is possible that in a few days I may return to the West Indies, but it is not settled. After you have read the Antillean paper, I should be glad if you would give me an expression of your opinion as to the work. I have not carried my hypothesis any farther nor applied it beyond what is expressed in the paper. I hope that you are well this winter.

As ever

My Dear Sir.

I send you by mail to day my paper on The Reconstruction of the  
Antilles. I hope that you will find time to read it. It may seem  
to you to make such generalizations, but I have no other defense than  
the data brought together. On the other hand I have data even more certain  
to show that New England was submerged to the height of at least 8,000 feet  
at the birth of Niagara. This work is not organized into a paper, and I should  
lay the facts before you, but it could only be done in an interview  
possible that in a few days I may return to the West Indies, but it is  
After you have read the Antilles paper, I should be glad if  
you would give me an expression of your opinion as to the work. I have not  
carried my hypothesis any further nor applied it beyond what is expressed in  
the paper. I hope that you are well this winter.
