Dear Sir,

I have sent to  
you by mail a copy  
of my latest publication  
on E. gon.

In answer  
to ~~the~~ your inquiry  
I may say that  
Lettel gives it as

in Palaeontologie  
Vol 1st through speaking  
of it as uncelars  
and that. Capsula  
Spell, Pacher, Ines

Brady, Sumner, May  
Schute, Kemp, Backstetter  
and many others of  
our best authorities  
in European journals  
have accepted it as  
 genuine. Kemp, Rowley,  
Carter and Weber  
have been its principal  
opponents. In Canada  
Gray, Weston, Lynn  
Hunt and Matthews  
are supporters

fermentation and  
of the modes of  
renewal of fruit  
to give an independent  
opinion.

I may mention that  
in a few months ago  
Reynolds of the Port News  
has published a  
paper in London Dallas  
saying what has not  
yet reached me
