Sir William Dawson

Dear Sir When in Montreal I ventured to call upon you having heard from Mr. Drysdale that you were interested in our "Records of the Past" and generally in the subject of the Birk and the Monuments.

I was very sorry not to find you in for first I wished to ask whether, if you think of writing on the above named subject, you would entrust us with the publication of the work and second I wished to leave

with you a copy of our
Teacher's Bith - as I under-
stand you are also much
interested in such matters.
I am the publisher of "Bagster's
Biths" and grandson of the
founder of our House and
this Teacher's Bith was planned
by me. I should much like
to hear what you think of the
Helps - with the complete index
with Helps.

Believe me dear Sir

Yours truly

Robert Bagster
