Dear Sir:--

The current number of SCIENCE is being sent to members and fellows of the A. A. A. S. At the Brooklyn Meeting resolutions were unanimously adopted, specifying a limited co-operation between the A. A. A. S. and SCIENCE. The present management of SCIENCE will be glad to fulfil the engagements of the former publisher in reporting fully the meetings of the Association and in printing papers read before it, and hopes that all members of the Association who are able will subscribe to the journal. SCIENCE is the only journal published in America covering the same ground and having the same aims as the A. A. A. S. It performs an important office for science in America, and in turn needs the support of all who are interested in the advancement of science.

Yours truly,

PUBLISHERS OF SCIENCE.
