Aug - 8/95

Dear Sir William

It was a matter of very great regret to me, that I found myself quite unable to get away from Montreal at the time mentioned by you - I waited a few days after receipt of your first letter, hoping that affairs might alter, and that I might have had the chance of visiting the mines with you - a patient, in whom I was much interested lay very ill of typhoid - and I was unwilling to hand him over to a Currier, whom he could not regard as a stranger - Besides that, we have taken in hand during the last two or three weeks, the re-modeling of our Medical journal - and for the first few weeks, I felt I must be here to superintend

my share of it - and our next Volume
Commence with the day number.

I am glad to hear that Lady Danda
and yourself made the journey down to
Metz, without too much discomfort.

I trust Lady Danda is keeping
strong - I hope some time during the
summer to see her for a few minutes.
As I very likely will pay a hurried
visit to Metz, but just when I can
hardly say.

I shall be anxious to hear that
you made your journey to the Doggins
mine safe - and found yourself
repaid for your trouble by obtaining
treasure. Some other time I hope I may
have the good fortune to accompany
you in some of your walks.
With very kind regards to Lady Danda
and yourself -
Yours sincerely
Wm. Linnell
